

The Hamilton Fringe Festival is an action-packed performance event that takes place over 12 days each July throughout Hamilton, ON.

From July 14-25, the Hamilton Fringe Festival will share the biggest offering of unabashed and unjuried virtual theatre—produced right here, then streamed online and on-demand to the entire world.

In our continuing drive to provide more accessible programming choices for our audiences, we wanted to highlight some selections among this year’s programming that include enhanced accessibility features:

| Show Title | Company | Series | Tickets | Features |
